

POLICE WILL HELP CHARITY WORKERS GIVE AID TO POOR

Census of City's Unemployed
Will be Made by Officers
in Every District.

Following a conference with Commissioner Kingsbury of the Department of Charities and heads of charitable organizations, Police Commissioner Woods announced to-day that he is preparing to take a police census of the unemployed with the purpose of rendering assistance to the needy poor of New York.

He wants it understood that the policeman are to handle no money in the movement and that what is done will be for residents of New York only. He doesn't want the word to go out that this city is easy and have the professionally unemployed flocking here.

Through funds contributed from outside sources, the Commissioner has employed Leroy Petersen, a graduate of Alleghany College, who is an expert in charity and formerly was an investigator for the Bureau of Municipal Research and the Education Committee of the Board of Estimate. His office will be at Police Headquarters and will act as a clearing house for reports made by the police.

Inspectors and Captains, by order of the Commissioner, have taken up the question with churches, institutions and societies in their various precincts, to find out what they would do for relief. All cases requiring aid will be reported to the police captain in whose district the persons live and will be investigated by policemen. An effort will be made to afford permanent relief by co-operation with the Municipal Employment Bureau. Cases of invalids and cripples will be investigated with special care.

The census of the unemployed will begin in the Fifth Inspection District, which embraces the section between Fifty-ninth and One Hundred and Tenth Streets east of Fifth Avenue and is of unusual cosmopolitan population. Commissioner Woods says reports show unemployment is conducive to crime.

Grieving, Tries to Die.
Grieving over the death of his wife, whom he lost more than two years ago, Frank A. Wolf tried to commit suicide to-day by inhaling gas in his room at No. 1751 Avenue A. Mrs. Dieli, of whom he rents the room, smelled the escaping gas and called a policeman, who sent Wolf to Bellevue Hospital. It was said there he will recover.

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system.

They do that which dangerous calomel does without any of the bad after effects. All the benefits of nasy, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or disagreeable effects of any kind.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.
